**SEPTEMBER 30, 2019 — DEMPSEY INTERNATIONAL EXTENDS ITS MANUFACTURING CAPABILITIES TO INCLUDE OFFSHORE PRODUCTION OF LIGHTWEIGHT WINE BOTTLES THROUGH A JOINT VENTURE PARTNERSHIP.**

Dempsey International has established an offshore manufacturing partnership to increase its presence in the USA Wine Market.

The Joint Venture establishes a daily production capacity of 500,000 bottles in both Antique Green and Flint utilizing some of the newest and most advanced manufacturing technology in lightweight glass production. Two color campaigns are planned annually to provide continuity of supply and Dempsey International will provide up to 6 months of Inventory storage at no extra charge for our customers.

Product is available in bulk, content cartons, and customer specific cartons. Our technology gives us a big advantage over other importers and brings much needed additional capacity to the Wine Industry.

All prices are FOB American Canyon, CA with no tariff surcharges. We perform certified product testing to meet or exceed all local and federal standards including CA proposition 65.
